

CHEVRON STS

Square Toe Med-Surge Shoe

Model: 447

The Chevron STS is designed to provide the ultimate in protection and comfort in post-operative footwear.

- **Square Toe Design** - Extended square shape provides extra protection for toes, forefoot and bandages and acts as a buffer from accidental bumps and scraps. Especially beneficial when surgical K-wires/pins are employed.
- **Adjustable Forefoot Closure** - Expands to accommodate dressings with no buckle pressure on sensitive forefoot.
- **Extremely Light Weight** - Molded EVA sole design gives an extremely light weight but durable shoe for comfort, easy wear.
- **Rocker Bottom, Non-Skid** - For a smooth, natural gait with reduced plantar pressure.
- **Adjustable Ankle Strap** - Eliminates heel slippage and fits as snug or wide as needed.
- **Removable Insole** - Can be customized or hallowed if needed to relieve pressure, and then adhered in place. Made of durable, thick EVA material that provides resilient cushioning and conforms with wear.
- **Semi-Rigid Sole** - Semi-rigid provides flexibility with foot control.
- **Breathable Material** - Advanced material wicks moisture away from the skin and allows air to circulate.
- **Fits Right or Left Foot**

Part No.	Size	Length	Toe Width	Heel Width	Women	Men
447-11	XSM	8 3/8"	3"	2 3/8"	3 - 5	
447-12	W-SM	9 1/3"	3 5/16"	2 5/8"	6 - 7 1/2
